

Your Pop Punk Song

Track the harmonic rhythm for your song sections

Shedthemusic.com

You

Make the sections of your song 4 or 8 measures long.

Choose a chord progression using I IV V and vi chords in any key (add ii and iii if you dare).

Write the chords above the slashes to show the harmonic of your song sections.

Label the song sections

*Tips: Chords usually start on beat one of each measure.
The chord progression will repeat within each song section*
